BUILD THE CURRICULUM

Steps 06 – 10

Sections first, then lessons — video, document or any of eleven types.

THE COURSE MANAGER — WHERE CONTENT LIVES

WHERE IT LIVES Courses → Manage courses → open a course → Curriculum

The screenshot shows the 'Update: Emergency First-Aid, CPR & Anaphylaxis Protocols for Pharmacists' course page in the 'Curriculum' tab. The left sidebar contains a navigation menu with options like Dashboard, Courses, Enrollments, Report, Users, Stores, Message, Settings, and Manage profile. The main content area has a top bar with 'Back to course list' and 'View on frontend' buttons. Below this is a 'COURSE MANAGER' section with a horizontal menu of tabs: Curriculum (active), Enrol list, Academic progress, Bbb live class, Basic, Info, Pricing, Media, and a search icon. Four buttons are visible: '+ Add section', '+ Add lesson', '+ Add quiz', and 'Sort sections'. Two sections are listed: 'Section 1: Basic Life Support (BLS) in Community Pharmacy' containing 'Lesson 1 : CPR Fundamentals: Chest Compressions & Rescue Breathing' and 'Lesson 2 : Automated External Defibrillator (AED) Overview', and 'Section 2: Acute Medical Emergencies' containing 'Lesson 3 : Anaphylaxis Recognition & Epinephrine Auto-Injector Technique' and 'Quiz 1 : First-Aid & Emergency Response Quiz'. Three callout boxes provide context: one points to the section header stating 'Sections Hold Lessons - So The Section Must Exist First'; another points to the lesson/quiz entries stating 'Lessons And Quizzes Number Straight Through The Whole Course'; and a third points to the four buttons stating 'Four Buttons Build Everything - Section, Lesson, Quiz, Sort'.

Sections Hold Lessons - So The Section Must Exist First
